

POWERSTREAM 9.5kW Range - Eco With Controls

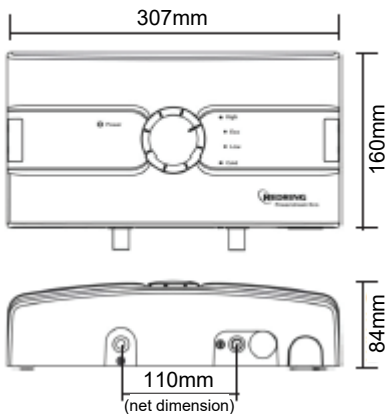

Eco with controls

The new Powerstream Eco delivers hot water instantaneously at the point of use, eliminating the need for a centrally located hot water cylinder and long pipe runs. The compact and unique design now offers external power selection with an Eco setting for ease of use and reduced running costs.

Key Features

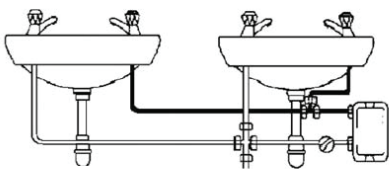

- Water supplied to one or two hand basin outlets.
- Direct mains supply.
- Small compact shape with a maximum height of 160mm, width of 307mm and depth of 84mm.
- Fast response.
- Neon “power on” indicator rotary control with High, Eco, Low and Cold settings on an impact resistant cover.
- The Powerstream range is not suitable for bath installations, due to temperature loss when filling the bath.
